

# LYRIK DAVIS

---

## PROFESSIONAL SUMMARY

Motivated college student with a lifelong passion for the aerospace field and safety management, seeking opportunities to grow my experience and skills in the industry in a professional environment. I currently am attending Liberty University's School of Aeronautics, studying aviation administration safety management and unmanned aerial systems, while working as an assistant at the Liberty University Astronomical Observatory. I am adaptable to new environments and operating procedures, enjoy working in teams and individually to solve problems while furthering my own professional growth as well as the growth of others.

## SKILLS

- **Technical Skills:** I am proficient in Microsoft Office software, general and specialized computer software and hardware, and am able to quickly adapt to specialized software and equipment.
  - **Leadership and Management Skills:** I have developed and value my leadership skills. I strive to practice servant and transformational leadership to those I work with.
  - **Safety:** I highly and equally value safety and working consistently with operating procedures regardless of the work environment.
  - **Communication and Customer Service:** Regardless of industry or situation, I value others and seek to understand others through purposeful listening and earnest effort to seek the most valuable resolution to a problem for all involved parties.
-
